Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This house originally faced east, away from Back Creek. The present owners reoriented it to face north. Set on a low brick foundation, this is a two-story framed and weatherboarded four-square. The ridge of the hipped roof runs perpendicular to the original facade of the house. There are hipped dormers in the east and west-facing planes of the roof. The roof structure has a decorative kick at the eaves on all sides. The house has been altered. A one-story shed-roofed enclosed porch conceals the original two-bay facade. There is a broad one-story ell on the original back of the house. A new classical broken-pedimented doorway has been added to the north side wall, and the entire structure has been covered with vinyl siding. To the south of the house is an original pyramidal-roofed garage with folding wooden doors.
